# Perspectives for Development and Cooperation

MOVE 1<sup>st</sup> Brokerage event  
Sofia, March 6, 2017

# КЛЪСТЕР ЗЕЛЕН ТРАНСПОРТ

---

# CLUSTER GREEN TRANSPORT

# Objectives

- Bringing together all companies related in any way to the intermodal business in Bulgaria.
- Promotion of intermodality in transport sector and develop Green Transport Corridors.
- Integration of the domestic intermodal connections with international combined transport networks.
- Assistance of the Cluster Members in the development of intermodal activities.
- Training of Cluster Members' employees in the area of intermodal transports

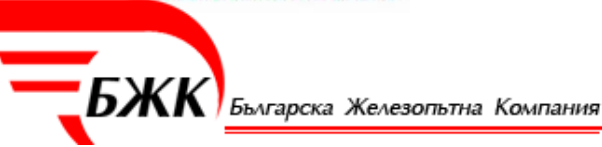

# Goals

- Developing a common software and web-based platform to exchange information about empty return capacities and urgent hard to service freight orders.
- Gathering of information and summarizing it regarding freight volumes in all modes of transport between third countries whose traffic crosses Bulgaria.
- Event management and organization – seminars and training courses for Cluster Members and their employees.
- Best practices and business experience Cross-pollination and know-how exchange with partners and experts abroad

# Members of the cluster

# First idea of collaborative activities

Creating a generally applicable for the whole of EU and allied countries internet based platform.

# Second idea of collaborative activities
